your **nu** bathroom  
Spring/Summer **2015**

Our guarantees cover our products for normal domestic use, they cover the material structure of the product against manufacturing defects for the guarantee period stated and are only applicable in the UK and ROI and are subject to certain exclusions and terms & conditions, which does not affect your statutory rights. They do not cover: non domestic use, failure to install correctly, fair wear and tear, electrical failure, moving parts which are likely to perish over time (such as rubber seals), neglect or misuse.

Throughout this brochure all measurements are given in millimetres. Every effort has been made to ensure the accuracy of all information in this publication, however all measurements should only be used as a guide and final checks made before purchase. We must also reserve the right to amend details, prices and specification without notice. Whilst we have endeavoured to maintain accuracy throughout this publication all images are for illustration purposes only and are subject to change. Colour reproduction is as accurate as current printing methods allow. E&OE

introducing...

super-strong  
**ACRYLIC**

super-strong ACRYLIC has many benefits over standard acrylic. Made using the latest materials and techniques it produces a bath that is as strong as cast iron but is warmer to the touch and retains heat longer than a standard bath.

Smooth high gloss acrylic is solid in colour so it won't rub off or fade.

Fully encapsulated high strength baseboard.

A special mix of polyester resin seals in the baseboard, increasing rigidity and acting as a thermal layer so the water stays warmer longer.

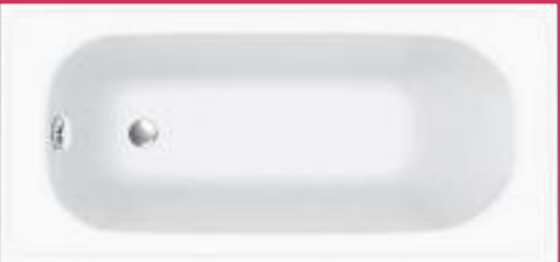

All our acrylic baths are available with super-strong ACRYLIC except for the Durban single ended bath. The extra strength of our super-strong ACRYLIC makes it ideal for use in a shower bath where the weight is concentrated at one end, this puts extra strain on the structure of the bath but with super-strong ACRYLIC the bath remains strong and rigid.

1m **£49**

Scale 1:20

the bathroom builder

Use our unique bathroom planner to quickly draw and plan your new bathroom. Simply measure your room and draw the outline using the graph above. Each square is 10cm x 10cm and the thicker lines are 1 metre apart this will reduce your bathroom to a 1:20 scale.

Once your bathroom outline is looking right, you can peel off the stickers from the opposite page and begin designing the layout. Peel and stick until you have the perfect layout for you.

Hints and tips:

- Try and place toilets on external walls so the waste pipe can be horizontal.
- Change the direction your door opens to create more space in your room.
- Think about places to hang towels, toilet rolls and mirrors.
- Choose the right size radiator for your room, find out how many BTUs you will need.
