super-strong  
**ACRYLIC**

super-strong ACRYLIC has many benefits over standard acrylic. Made using the latest materials and techniques it produces a bath that is as strong as cast iron but is warmer to the touch and retains heat longer than a standard bath.

Smooth high gloss acrylic is solid in colour so it won't rub off or fade.

Fully encapsulated high strength baseboard.

A special mix of polyester resin seals in the baseboard, increasing rigidity and acting as a thermal layer so the water stays warmer longer.

Most of our acrylic baths are available with super-strong ACRYLIC. The extra strength of our super-strong ACRYLIC makes it ideal for use in a shower bath where the weight is concentrated at one end, this puts extra strain on the structure of the bath but with super-strong ACRYLIC the bath remains strong and rigid.
