Geo Concrete

Concrete & texture infuse to create this modern Monaco range. The bold textured patterns are sure to make a statement whilst adding depth to your walls. Choose between warm Beige or cool Gris.

Concrete is very much still on trend and the Firmo tile gives you the look of board formed concrete - a process that transfers a wood gradient onto concrete, without any mess or hassle.

A homage to brutalist architecture, the cement-like colouration of the Ceteris tile is offered in a subtle random pattern mixture that successfully pays tribute to this modern design movement.
